Description

Introducing the BMW X1 2.0 18d M Sport, a sophisticated and dynamic SUV that combines performance, luxury, and practicality. With a powerful 2.0-litre diesel engine delivering 141 bhp and a four-wheel-drive system, this vehicle ensures a thrilling driving experience while maintaining impressive fuel efficiency of 51.4 mpg. Finished in a striking Black Sapphire metallic, this 2014 model has covered 100,016 miles and is ready to take on any adventure with its spacious five-door layout and full leather interior.

This BMW X1 comes equipped with over £3,000 of optional extras, enhancing both functionality and comfort.

The Extended Storage option provides additional versatility, allowing you to maximise the use of space within the vehicle. With cleverly designed compartments and storage solutions, you can easily stow away your belongings, making every journey more organised and enjoyable.

The Roof Rails in Matt Aluminium not only add a stylish touch to the exterior but also increase the vehicle's practicality. Perfect for those who enjoy outdoor activities, these roof rails allow for easy attachment of roof boxes or bike carriers, making it simple to transport your gear wherever you go.

The Park Distance Control (PDC) feature, available for both the front and rear, enhances your parking experience by providing audible alerts as you approach obstacles. This technology ensures that you can navigate tight spaces with confidence, reducing the risk of minor bumps and scrapes.

For added comfort during colder months, the Front Heated Seats provide a luxurious touch, ensuring that you and your passengers stay warm and cosy. This feature is particularly beneficial for those chilly mornings, making every drive a pleasure.
